### LA BANDE A BONNOT

**DURÉE** : 110 min.  
**SORTIE** : 30/10/1968

**SYNOPSIS (« BONNOT'S GANG »)** : Paris, 1911. A confirmed anarchist, Raymond-the-Science, has just served a prison sentence for having tried to stir up discontent amongst the workers. He meets up again with his friends Garnier, Carouy, Dieudonné and Soudy who, along with their wives and children, live a communal life in their leader Kibalthine's villa. They all find their leader in the shape of Jules Bonnot, who has chosen to express his revolt against the established order and the society of his fellow men through acts rather than through words. Together, they raid a gunsmith's shop, steal cars and attack a bank clerk, killing off all witnesses who get in their way. After a deadly expedition to Brussels, where they kill several more people in cold blood to escape from the police, the gang returns to Paris and disperses.
